## Gallery Wraps

We offers both Fine Art Canvas and Metallic and Lustre photographic paper Gallery Wraps with three laminate options, two depth options, and mix and match sizing. Gallery Wraps arrive complete and ready to hang on the wall the moment they are received.

### Papers

Gallery Wraps are available printed on a fine art canvas using an inkjet process or as a Metallic or Lustre Photographic Paper using a traditional canvas process. Metallic paper gallery wraps enhance the look and vibrancy of your image. With photographic print Gallery Wraps, an actual photographic print is created and its emulsion is stripped, bonded to canvas and wrapped around the wood frame.

### Construction

Your image is printed larger than the final print size so that it can be wrapped around the wooden frame. Gallery Wraps are made with real wood available in 1½" and 2½" depths. Mix and match gallery wrap lengths to create the perfect custom size.

All Gallery Wraps include a high gloss, semi-gloss, or matte laminate to protect the gallery wrap from scuffs, scratches, and cracking. The laminate also provides UV light protection.

Custom sized Gallery Wraps are available. Fine art gallery wraps are available in custom sizes between 5x5 and 40x60. Photographic Gallery Wraps are available in custom sizes between 8x8 and 30x40.

## Float Wraps

A Float Wrap is a new, unique option to display images. Float Wraps are similar to Gallery Wraps or Standout mounted prints in that they add dimension by extending out from the wall. Float wraps are unique in that they appear to be floating on the wall with the main focus on the image! Create a modern display with a Float Wrap wall collage that is ready to hang once removed from the box!

Float Wraps are created by wrapping the photographic print or canvas print around masonite to create a thin wrap. The print or canvas is protected with a laminate and padding is added between the print and the masonite to give the front of the Float Wrap a raised, elegant look and feel. The back of the Float Wrap is complete with a black paper backing and a black  $\frac{3}{4}$ " or  $1\frac{1}{2}$ " thick gatorboard block that allows the Float Wrap to extend out from the wall. The back of the block also contains drilled holes for hanging. Or, if you'd prefer to display your Float Wrap on an easel, you can order your wrap without the gatorboard block. Order Fine Art Canvas with a Semi-Gloss Laminate or Metallic Canvas with a High Gloss Laminate. Lustre and Metallic Photographic prints are finished with a Matte Laminate.

Float Wraps are backed with black paper and a black  $\frac{3}{4}$ " or  $1\frac{1}{2}$ " thick gatorboard block that contains holes for hanging.

Padding is inserted between the print and the masonite to provide added depth.

## Press Printed Albums

(Combo Cover)

Press Printed Books and Albums are unmatched in print quality and craftsmanship. All Press Book & Album covers are made with masonite to give the books a smooth, substantial feel. Custom Photo Covers are made with a Lustre or Metallic photographic print that is laminated and adhered to the masonite cover.

Press Printed Albums are flush mount albums with thick lay-flat pages and no middle gutter. Printed on Indigo Digital Printing Presses, Press Printed Albums offer more unique and affordable options compared to other flush mount and photographic albums.

Unique to Press Printed Albums, the inside pages are printed on Pearl UV press paper and adhered to heavy black cardstock. This allows each spread to lay flat with a thick look and feel. Pages are printed as full spreads and not cut so imagery and design elements are not lost in the center of the book!

There are 3 levels of cover options available for Press Printed Albums including leathers, custom photo covers, or a combination of the two (photo above)! Additional options include a padded cover to give your album a more traditional, high-end look and a Combo Cover.
